

 **VR NETHERLANDS**
YOUR GUIDE TO XR

Overview

Start the most accessible journey to Location Based VR Entertainment!

We care about offering **great experiences** and believe in **fair prices** for everyone involved. The way we created our model ensures both game and platform developers get a fair price for the software they make. Yet we kept the prices friendly enough to make sure it's easy to get a healthy ROI while keeping great prices for your guests!

This is what you can count on:

- ✓ Focus on continuous experience development
- ✓ Your safest choice for hardware, offering support and insurance plus the ability to switch to newly released hardware mid contract
- ✓ For your sake we keep working on the easiest possible operation and fast player on-boarding to maximize your ROI
- ✓ Optional full IT- and Business-support
- ✓ Optional custom sized VR arenas for play spaces with complicated shapes or pillars/walls interrupting the area

Packages

With our smart subscription you'll have everything you need to start playing! Want more support or perhaps a fully functional business model, a custom made play area or even a bespoke marketing strategy? We've got you covered with our COMPLETE and PREMIUM packages.

Recommended VR experience

A **family-friendly team-building game.**

Enter a virtual kitchen where you and your fellow chefs face the challenge of tons of hungry customers.

Assign tasks, work together, and **flip as many burgers** as you physically can. As you and your chefs progress, the recipes will get more complicated, and intensive teamwork is required to keep the customers happy!
